HOOKKAPANI STUDIO

Artwork Specification Sheet

Bowling Man

Category: sculpture

Materials: Stainless Steel, Resin

Dimensions: 8 ft - 2.4 m

Movement: Static

About the work

A figure that balances industrial heft against a fluid, kinetic-inspired posture, built in stainless steel and resin.

Installation notes

- Site and load requirements are finalised after a technical survey.
- Mounting and motion systems require scheduled preventive checks.
- Suitability for indoor or outdoor display depends on the selected material finish.
- Weight, power requirements and lead time are confirmed for each site on enquiry.

Availability

Confirmed directly with the studio on enquiry.
